BUSINESS FROM THE FLOOR

Dave Schuster – wanted to know when the Planning Board would have their Solar Report ready for the Town for Public review, it has been sixty days. At the work sessions, sidewalks around the High School were discussed, and it was stated that the county does not have the money to do it, and the Town does not have the money to put them in. But, the county can spend millions on New Era Field for luxury seating, and the Town can spend millions for a new Community Activities Center.

Eric M - stated that the residents around New Era Field do not have to get commercial parking permits as they are inconvenienced and have to protect their property. But there are several residentially zoned lots that do not have houses on them, and he believes they should have to get a permit as well. They are operating a business and should have to abide by the same laws and rules as a commercial property. He also stated that some of the lots are so jammed with vehicles that if there ever was a fire, no emergency vehicles would be able to get through.

The resolution was unanimously adopted.

Erie County Legislator John Mills discussed the many different programs that the County has available to its citizens. He noted that the County in the third quarter of the year is 14 million dollars ahead in sale tax revenue, and he is going to work to direct these funds towards the infrastructure in Erie County. Legislator Mills said the County budget process starts October 15, and he does not expect any increase in taxes. He also said he would work with Supervisor Keem regarding sidewalks around the High School on Freeman Road.

Councilmember Sherry talked about an ad that put in the Bee by the “Taxpayers United of Orchard Park” which said “Say No to increasing the Town Board to 5, Say No to higher taxes”. This confused the Town Board because they have no idea who is putting this out or why they would do this. The Town Board has not discussed it, and there is no vote coming up on right sizing the Town Board. If someone wants to put forth a debate on this issue, they should acknowledge their stand and step up and identify themselves. This is public issue. He feels that this ad, put in the only Town wide distribution of the Bee, was politically motivated and manipulative.

Councilmember Sherry shared his opinion about restoring the Town Board to five members. First of all he stated that the Town of Orchard Park is about 45 sq. miles, has 27,000 residents, approximately 100 employees, 4 unions, 20 some committees, boards and task forces, an annual combined operating budget of 32 to 35 million dollars annually, and a full range of services for the residents. The current board consists of three members, with one full time. There are only a handful of boards in New York State that operate with 3 members, doing so risks less efficient governance, and or, burnout. Go to the Town’s website and look at what each member of the Town Board is responsible for. Adding two more members would only add around \$43,000 to the Town Budget.

This issue came up long before Councilmember Sherry was in politics, at that time he made the point that all the decisions regarding the Town are in the hands of three people instead of five people. The downsizing of the Town Board narrowed representation of the people. His opinion, even though it has not been discussed, is yes, we should right size the Board. It would be in the best interest of the community. So this should be opened up to the community for discussion.

Highway Superintendent Piasecki stated they are paving Vistula Ave, just completed micro paving Seufert Road, are doing drainage work and site work at the Community Activity Center.
