Re: Backflow Prevention Devices

Dear Board Members:

The Town of Orchard Park is required to test backflow prevention devices in the Community Activity Center, Library, Municipal Center, Compost Facility, Green Lake/Little League Park, Orchard Meadows Playground and Honey Crest Playground. The Town must comply with the New York State Sanitary Code Subpart 5, from the New York State Department of Health and as required by the Village of Orchard Park.

Bids were opened for the Backflow Prevention Devices on May 28, 2020. The bid was for both a base bid for testing and costs of backflow prevention repair kits. Bids were for each facility and the size of the backflow prevention device that each facility currently uses. The lowest base bid of $1,820.00 was for all seven sites with also a total low bid of $3,685.00, including repairs and kits if needed.

Attached is an extended tabulation for bid results showing the itemized bid amounts of each contractor.

The Engineering Department has reviewed the bids for this work. The two contractors that bid the scope of work were John W. Danforth Company ($1,820.00/$3,685.00), and MKS Plumbing Corp. ($2,280.00/$3,983.00).

The lowest bidder for this project was John W. Danforth Company. The company has been in business since 1884 and has successfully completed various backflow prevention testing and installation projects in the past for Orchard Park. This company is more then capable of completing the proposed testing and repair of the various backflow prevention devices.

I, therefore, recommend that you award the contract for Testing and Repair of Town Owned Backflow Prevention Devices (2020) to John W. Danforth Company, 300 Colvin Woods Parkway, Tonawanda, New York, 14150, in an amount not to exceed $3,682.00, including repairs and kits if needed.
